

# Wi-Fi Optimization Services

Continuously fine-tune your solution to keep pace with your mobility needs

## INTRODUCTION

Your Wi-Fi mobility needs will continue to evolve as new technology, opportunities and challenges arise in your organization, market and industry. As your partner, we make sure your Wi-Fi mobile solution continues to deliver the value and capabilities you need to achieve your goals with continuous solution monitoring, management and optimization.

## SYSTEM OPTIMIZATION

Going live is just the start of your journey to mobile success. As your business goals and needs change, you want to make sure your solution capabilities do as well. We proactively monitor your Wi-Fi solution to help you effectively manage your network and technology to maximize your solution Return on Investment (ROI) and benefits.

### **Onsite or remote 24/7 services:**

Gain knowledgeable, 24/7 support to help diagnose Wi-Fi problems, test options and implement solutions that address your performance needs along with ready access to solution experts with the hands-on expertise to troubleshoot complex issues to optimize Wi-Fi technology and processes.

### **Health check/network optimization:**

Optimize your Wi-Fi solution performance with regular technology assessments that examine the state of your network and devices, including how your solution fits into your cloud and IoT goals as well as your overall digital strategy. These health checks also identify risks and help inform strategies to upgrade or scale your solution when needed.

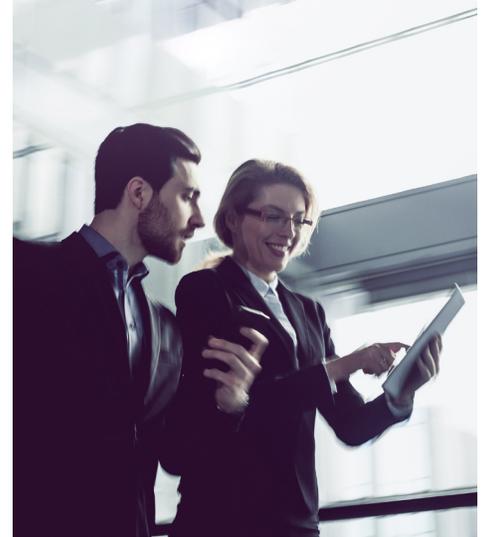

## SYSTEM OPTIMIZATION

### Device monitoring:

Prevent or resolve issues before they become critical with proactive monitoring that helps you identify problems early on and expedite resolution to minimize network downtime, improve day-to-day network performance, and optimize your Wi-Fi devices, applications and infrastructure.

### User experience workshops:

Understand the mobile usage behaviors and preferences of your teams and business groups while gaining actionable recommendations on ways that mobility can help make their jobs easier. Interactive workshops combine a mix of best practice tutorials with live questions and workflow scenarios to deliver measurable value to your end users and ultimately your business.

## SPECTRALINK ENTERPRISE MOBILITY SERVICES
