

Spectralink 7502

Stylish and Feature-rich DECT Handset
for Small and Medium Sized Businesses

The Spectralink 7502 wireless DECT handset is elegant yet robust with a long list of features specially designed to increase user as well as business productivity for mobile workers in SOHO (Small Office / Home Office), and general office environments. The large color display and the intuitive menu structure makes the handset a valuable and preferred choice for mobile workers in general office environments across the range of vertical markets.

Business Benefits

Ease of use is key for any handset as without it the handset fails to be a valuable tool for the employee on the move. The Spectralink 7502 wireless DECT handset leverages an intuitive design – making it easy to use for any user.

With the Spectralink 7502 handset, employees benefit from increased productivity and optimized daily workflows with easier and faster access to the information they need to perform their day to day tasks.

The 7502 is designed for easy one-hand operation for both right-handed and left-handed people. It comfortably fits in the user hands with easy access to all the keys – and allows for fast access of features using the two softkeys and the four-way navigation keys. Finally, it has all the main user features easily available under the on-screen menu.

The Spectralink 7502 handset is certified and tested with market leading Call Control and Unified Communications (UC) platforms.
