

A Mobility Solution for Retail

Versity retail smartphone

Empowering your retail workforce

Spectralink's Versity enables your associates to deliver an extraordinary customer experience with the thinnest, sleekest, most powerful smartphone on the market.

As the retail world faces competition from many different channels, retail mobility has become critical to delivering superior customer experience, expanded in-store sales opportunities and competitive advantage. However, finding a device that's the right fit for the retail market has been challenging—until now!

Purpose-built for the way retail associates work, Versity solutions easily integrate with your existing communication tools and retail applications to empower associates, streamline workflows and improve store performance.

These solutions are designed to meet your company's specific mobility goals by combining:

- Best-in-class mobile call quality
- Application integration
- Rugged, thin and lightweight design
- Enterprise data security

Versity is a next-generation solution that delivers on every front with anytime, anywhere access to applications, data, product information, and inventory to help to support your customer service initiatives.

Spectralink Versity helps your associates:

IMPROVE IN-STORE PRODUCTIVITY

- ➔ Empower associates to communicate and access information from anywhere
- ➔ Look up real-time inventory data to reduce out-of-stock instances
- ➔ Manage in-store tasks and monitor completion

IMPROVE CUSTOMER EXPERIENCE

- ➔ Respond to customer inquiries quickly, efficiently and accurately in-store or call-ins
- ➔ Transact with customers on the store floor, with mobile POS
- ➔ Offer promotions at the point-of-sale for upsell and cross sell opportunities.

STREAMLINE WORKFLOWS

- ➔ Receive floor alerts and mobilize “associates” to assist
- ➔ Check inventory and place orders with convenient delivery options
- ➔ Coordinate staff to enable a seamless BOPIS experience
