

Vocera and Spectralink Announce Reseller Partnership, Systems Integration

Joint solution gives clinicians a new product choice for enterprise mobility and communication

SAN JOSE, Calif., November 19, 2019 — [Vocera Communications, Inc.](#) (NYSE:VCRA), a recognized leader in clinical communication and workflow solutions, today announced that Vocera mobile applications have been certified for use with the [Spectralink Versity](#) smartphone. Additionally, Vocera will be a select reseller of Versity, giving the companies' joint customers a seamless way to improve clinical communication and patient care, safety, and experience inside and outside the hospital.

"In fast-paced environments like hospitals, nurses, doctors, and other care team members need smart, durable mobile solutions that make their jobs easier," said Doug Werking, CEO of Spectralink. "We are excited to integrate Versity with the Vocera solution to reduce information silos and provide meaningful patient information to clinicians at the right time, helping them make informed decisions quickly."

The Spectralink Versity smartphone is sleek, light, rugged, and purpose-built for healthcare. Versity provides unmatched Wi-Fi voice quality and is the ideal complement to the Vocera Platform's unique voice-driven user experience that allows clinicians to securely call by name, role, or group across the hospital or health system.

The integrated Vocera smartphone app, Vocera Vina, enables clinicians to manage all communication, including voice calls, secure text messages, alerts, and alarm notifications on one device. Accessing the app on Versity is fast and easy with single sign-on activated by a quick tap of a proximity badge. The intelligent Vina app, powered by the Vocera Platform, shows which care team members are logged in and who is available.

Health systems can now purchase Versity directly from Vocera, gaining the benefit of single-vendor continuity across their communication solution. Vocera is both a Spectralink Engage Channel Partner and a Spectralink Application Integration and Management Solutions (AIMS) partner. Through these partnership programs, Vocera and Spectralink work closely on product design, technical validation, and interoperability. Coordinated deployment, implementation, and technical support, including timely software and security updates, allow for a seamless experience for hospital IT teams and care teams.

"We are excited to partner with Spectralink and provide valuable solutions that help ensure frictionless workflows across sites and shared devices," said Brent Lang, president and CEO of Vocera. "The integration with Versity gives our customers the freedom to choose the best device for the job."

About Vocera

The mission of Vocera Communications, Inc. is to simplify and improve the lives of healthcare professionals and patients, while enabling hospitals to enhance quality of care and operational efficiency. In 2000, when the company was founded, we began to forever change the way care teams communicate. Today, Vocera offers the leading platform for improving clinical communication and workflow. More than 1,850 facilities worldwide, including nearly 1,600 hospitals and healthcare facilities, have selected our clinical communication and workflow solutions. Care team members use our solutions to communicate and collaborate with co-workers by securely texting or calling, and to be notified of important alerts and alarms. They can choose the right device for their role or task, including smartphones or our hands-free, wearable Vocera Smartbadge and Vocera Badge. Interoperability between the Vocera Platform and more than 140 clinical and operational systems helps reduce alarm fatigue; speed up staff response times; and improve patient care, safety, and experience. In addition to healthcare, Vocera is at home in luxury hotels, aged care facilities, nuclear power facilities, schools, libraries, retail stores, and more. Vocera solutions make a difference in any industry where workers are on the move and need to connect instantly with team members and access resources or information quickly. In 2017, Vocera made the list of Forbes 100 Most Trustworthy Companies in America. Learn more at www.vocera.com and follow @VoceraComm on Twitter.
