

Spectralink 7622 and 7642

In-Building Mobility Solution for Manufacturing with Enhanced Personal Safety

The Spectralink 7622 and 7642 wireless DECT handsets are ruggedized and durable - designed to work in harsh conditions - no matter if there is humidity, dust, or dirt. The handsets combine optimum functionality, ease of use, and elegance with a durable design meeting needs of a mobile workforce, especially in industrial and manufacturing environments.

The robust design of the IP 64-compliant handsets ensures that the handsets are resistant to dirt, dust, and splashing water. The handsets come with a complete set of specialized features prepared for third-party applications that can be tailored to meet the business needs of various organizations.

The Spectralink 7622 and 7642 offer a range of safety features. The integrated alarm button and specially designed color-coded alarm icons ensure immediate reaction in critical situations.

The high-quality TFT color display provides a clear view from all angles.

To improve communication in noisy environments, the handsets have a vibrator that makes the handsets ideal for environments where a ringtone may not be enough to detect incoming calls and messages.

The Spectralink 7622 and 7642 are certified and tested with market-leading Call Control and Unified Communications (UC) (IP-PBX) platforms.

Spectralink 7622 Handset

The Spectralink 7622 handset is highly durable, designed specifically for manufacturing environments, and comes with a range of features such as an alarm button, color display, and manufacturing-specific alarm icons.

Spectralink 7642 Handset

The Spectralink 7642 handset extends the capabilities of the Spectralink 7622 handset. Automatic alarms such as man down, no movement, and running detection ensures maximum safety when working with our approved application partner solutions. Lone workers and people at risk can immediately get help based on automatic alarms triggered by the handset's motion detectors or tear-off string.

Benefits

- Certified and tested with market leading Call Control and UC platforms
- Instant notifications make users aware of potentially hazardous situations
- Lone workers can send alarms in case of emergency
- Notification in case of machine failure reduces production downtime
- Automatic alarms (man down, no movement and running detector) increase personal safety and security

TECHNOLOGY ALLIANCE PARTNERS

We integrate to multiple calling, unified communications, alarms, alerts and messaging platforms.

Features

Spectralink 7622, 7642

- TFT color display:
 - 65,000 colors
 - Eight lines of text/icons
 - 128x160 pixels
- Date and time in display*
- Four-way navigation key
- Auto key lock
- Auto login – roaming between 15 different installations
- Alarm key – ready for application**
- Speed dial
- 12 different ringtones and adjustable ring volume
- Special ring tones for noisy environments
- Adjustable alerting volume (low battery/low coverage/ incoming message)
- Alerting on silent mode (display flash, vibrator, or short ring)
- Speaker on auto-answer

- Loud speaker/handsfree
- Vibrating alert
- Caller ID
- Telephone book with 350 entries
- Call list of incoming/missed/received calls
- Call list saved in non-volatile memory (up to 40 calls)
- Task list saved in non-volatile memory (up to 50 tasks)**
- Messaging (180 characters)*
- Alarm icons and messaging**
- LED**
- Handset Sharing***
- Full Slot DECT radio
- Software Update Over The Air (SUOTA)*
- Configuration Over the Air (COTA)*
- 15 menu languages (UK, FR, DE, ES, IT, NL, CZ, PL, DK, NO, SV, FI, PT, RU, TR)
- Subscriptions supported: 15

Spectralink 7642 Additional Features

- Bluetooth headset connection
- Tear-off string**
- Man down detector**
- No movement detector**
- Running detector**
- Automatic Alarm Call ***
- RED alarm button (required with Man-down applications)

*System dependent feature. See Feature Reference Guide on support pages at support.spectralink.com for details.

** Application dependent feature.

*** License required.

Specifications

Approvals

- EMC: EN 301 489-17 V3.1.1
- Radio: EN 300 328 V2.2.2 and EN 301 406
- RF Safety: EN 50566:2017
- Product Safety: EN 62368-1:2020+A11:2020
- DECT: EN 301 406 V2.1.1

Please check our website for latest approvals and regulatory compliance.

Speech / Standby Time

- Spectralink 7622:
 - Speech time: up to 23 (27 hours in economy mode)
 - Standby time: up to 118 hours
- Spectralink 7642:
 - Speech time: up to 22 (25 hours in economy mode)
 - Standby time: up to 90 hours
 - Speech/standby time with Bluetooth enabled: up to 11/50 hours

Size and Weight

- Size: 148 x 50.4 x 21.6 mm (5.8 x 2.0 x 0.9 in.)
- Weight: 115 g incl. battery (4.0 oz incl. battery)

Battery

- Battery: Li-ion battery
- Easily removable battery with option to use in shift-operation environments
- Battery lifetime under proper charge and discharge conditions: Two years or 500 charging cycles

Temperature

- Operating temperature: -10 - 55° C (14° F - 131° F)
- Charging temperature: 0° - 40° C (32° - 104° F)

IP Rating

- According to EN60529: IP 64 classified (dust tight and water splash proof)

Tests

- Drop test: IEC 60068-2-32

Complete your Spectralink DECT Solution

Optimize your Spectralink DECT Solution with AMIE® Advanced for IP-DECT

A cloud-based solution management platform for IT and Telecommunication Administrators to monitor IP-DECT servers, base stations, and handsets. AMIE Advanced for IP-DECT provides centralized provisioning, detailed analytics of system performance, automated and scheduled tasks, and proactive alerts when the infrastructure needs attention.

Protect and enhance the value of your Spectralink mobility solution with Software Assurance

Spectralink Software Assurance is specifically designed to complement and protect your existing Spectralink DECT solution. Software Assurance entitles you to all available software upgrades, including new features, service updates and security enhancements to mitigate the risk of data loss/breach over your subscription period.

De-risk your investment with Spectralink Professional Services

Design	Deploy
<p>Strategize your path to success. We analyze and assess your needs based on your business goals, end-user requirements, and existing IT infrastructure to start the process. Then we work with you to map out an effective strategy that brings together the right combination of mobile devices, applications, and technology.</p>	<p>Align and activate your solution. We help put your plan into action with a thorough implementation process that includes configuring, implementing, and testing all aspects of your technical environment. We also provide comprehensive training to help prepare and position your employees for mobile success.</p>

About Spectralink

As an award winner in mobile technology, Spectralink has been transforming the way our customers work and communicate for 30 years. Through our determination to do extraordinary things, we enable mobile workforces and empower our customers and partners to explore what's next, what's possible. With our enterprise grade, best-in-class mobile solutions, we are with our customers wherever they work, however they need us. Our people, commitment to innovation and our passion are our foundation for success.
