DECT Portfolio
DECT In-Building Wireless Solution

spectralink

Spectralink meets and exceeds the standards of Digital Enhanced Cordless Telecommunications (DECT) with its user-friendly, full-featured, and application-enabled wireless mobile handsets and flexible DECT and IP-DECT server solutions.

The Spectralink DECT Portfolio consists of a range of wireless DECT handsets and servers, which provide features and solutions that empower mobile workers across different industries. The modular nature and scalability of the servers make sure that any organization's needs can be matched. Moreover, all handsets are compatible with each DECT server, making it possible to combine several models in a single wireless system so you can choose the right handset device for each employee based on their specific requirements and needs.

Solutions for your needs.

Spectralink offers the industry's most versatile DECT solutions for the workplace. Through our solution partners, we offer a wide range of functional and industry- specific applications that enable enterprise mobile workers to do their job better by becoming more productive wherever they may be within the work environment. With the right in-building DECT solution – you can dramatically improve responsiveness, productivity and customer service of mobile workers so you and your team can solve your everyday needs – helping you to focus on your business.

The Spectralink 7000 Handset Series

The Spectralink 7000 Handset Series supports a broad range of applications from general office to healthcare, elderly care, manufacturing, retail, hospitality and more. The light-weight handsets are extremely easy to use, require minimal training and are highly durable. The handsets have been designed with exactly the right feature sets and tools to help you do the things you need to – like highest quality voice connections, backlit displays for dimly lit areas, panic button, two-way text messaging and so much more.

7722, 7742
These IP64 classified and disinfectant-resistant handsets combine mobility and hygiene. The application-enabled hand-sets are designed to enable health-care professionals to be mobile while still within quick reach in critical situations.

7622, 7642
These ruggedized handsets combine maximum functionality and elegant design with high durability. The IP 64 classified handsets are resistant to dirt, dust, and splashing water, and are designed to meet the needs of a mobile workforce in industrial, manufacturing, retail and warehouse working environments.

7522, 7532
These elegant and robust handsets have a large color screen and an intuitive user interface making it a valuable working tool and a preferred choice for mobile workers in administrative working environments across various vertical markets.

7202, 7212
These robust, feature-rich handsets are designed to meet the demands for mobility in a range of specialized working environments.

7502
This cost-effective wireless DECT handset is elegant yet robust with a list of features specially designed to increase user as well as business productivity for mobile workers in SOHO (Small Office / Home Office), and general office environments.

The Spectralink DECT Server Series

The Spectralink DECT Server Series includes a range of wireless servers for businesses of all sizes. The Spectralink DECT Servers are flexible and scalable solutions that can be easily integrated with your IP-PBX / UC Call Control platforms. Running on open standards, the Spectralink DECT servers can integrate with a long list of third-party applications and customized to your business need..

VIP-DECT Server One
VIP-DECT Server One is a software-defined platform that virtualizes large capacity IP-DECT Server deployed to support both central as well as distributed enterprise environments. It allows IT departments to quickly deploy and expand their DECT mobility network on existing standard IT environments with the need to install additional hardware.

IP-DECT Server 200
Targeting remote office, branch office (ROBO) and SMB customers – Spectralink offers a cost effective enterprise grade single-cell IP-DECT solution that can grow with your business – providing mobility for users within specific areas of any office environment. The Spectralink IP-DECT Server 200 comes with support for up to 12 wireless users with 6 simultaneous calls. The solution supports enhanced DECT security (encryption) and is designed for plug and play deployment leveraging Spectralink redirection services to help provide near zero-touch provisioning.

IP-DECT Server 400
The Spectralink IP-DECT Server 400 is the ultimate solution for small to medium-sized businesses and can be deployed as a single-cell or a multi-cell solution. The multi-cell solution supports 60 users and 24 simultaneously calls. You can easily increase wireless coverage of a larger area using up to nine (9) additional Base Stations to ensure users can move around within the premises – while still contactable and reachable – improving productivity.

IP-DECT Server 6500
The Spectralink IP-DECT Server 6500 is an ideal solution for radio coverage over a large geographical area or to equip and support thousands of mobile employees (up to 4,095) with wireless telephony. The modular nature of the Spectralink IP-DECT Server 6500 makes it a scalable, flexible and future-proof solution that can grow with your organization.

DECT Server 8000
The Spectralink DECT Server 8000 is a scalable solution for medium-sized to large enterprises with support for up to 4,095 wireless mobile users. Up to eight servers with 64 slots for interface cards can be linked together to allow for numerous ways to customize the solution to your organization's needs.

Professional Services

Spectralink can help ensure that you achieve better return on investment, increased uptime and improved reliability with highly responsive services and support options.

Benefits

CHOOSE SPECTRALINK'S DECT SOLUTIONS BECAUSE WE ARE THE EXPERTS IN:

- application-enabled enterprise mobile workplace solutions
- modular, and scalable servers
- providing exact handsets for all your business needs
- durability and high quality features
- third-party integration
- compatiblity with leading Call Control / Unified Communications (UC/UCaaS) platforms

About Spectralink
