

# Disinfecting Spectralink Versity

Spectralink's Versity Series smartphones are made with medical-grade resin designed to hold up to repeated cleaning from many of the standard anti-microbial surfactant detergents used in healthcare settings to clean and disinfect medical equipment.

## Approved disinfectants include:

- Clorox Dispatch with Bleach
- Clorox Healthcare Bleach Germicidal Wipes
- PDI Easy Screen
- PDI Sani-Cloth AF3
- PDI Sani-Cloth Bleach
- PDI Sani-Cloth Plus
- PDI Sani-Hands
- PDI Super Sani Cloth Germicidal Wipes
- CaviWipes
- CaviWipes XL
- Cavicide
- Sani Professional Sani-Wipes
- Windex Glass Cleaner
- Steris Germicidal Surface Wipes

The use of Ultraviolet (UV) Enclosures such as the AUVS KR615 Germicidal Enclosure can also be used to disinfect the Versity device, which is capable of a 99.99% Disinfection Rate for *C. diff* Spores.

Use caution when cleaning the Spectralink Versity smartphone with any cleaning products containing quarternary ammonium compounds or Hydrogen Peroxide.

Do not mix cleaning agents. The combined effects of cleaning agents are unknown. Mixing chemical agents could seriously degrade the construction of the smartphone, making it susceptible to damage, even with normal use.

## Do not use these products to clean your Versity smartphone:

- Furniture polish, waxes, or plasticizer-based cleaners (ArmorAll, etc)
- Lanolin, aloe, glycerin, or other skin care products
- Solvents such as acetone, mineral spirits, etc.
