

Versity 92 Series for Healthcare

A healthcare solution for non-clinical workers

Non-clinical workers make up a big part of the healthcare workforce and are vital to the patients' experience of care. They ensure the general running of the medical facility goes smoothly behind the scenes while addressing many of the non-medical needs of the patient. Though not clinicians per se, these workers perform a variety of clinical, assistive, and administrative tasks. And, like all healthcare staff, these team members should be provided with the tools they need to improve the experience of care, increase patient health outcomes, and reduce per capita costs.

What does a solution look like for these non-clinical healthcare workers?

They need:

- A durable yet lightweight device that won't break if dropped while they move or assist a patient
- The ability to scan a patient's bracelet as they transport them throughout the facility
- A touch screen to see vital patient information and orders that can be used while they are wearing their gloves
- To communicate clearly and securely with clinicians and other care workers - via both voice and text - as they move about the healthcare site doing their jobs
- Effective management of tasks, patient workflows and maintenance in a busy healthcare setting
- To keep both themselves and their charges safe in the event of an emergency or security situation

An all-in-one solution

Versity 92 Series solves all these problems. This enterprise smartphone provides critical healthcare teammates with constant connection to patient healthcare teams while also enabling them to support clinical staff and care for patients in more productive ways. By integrating with a healthcare system's workflow, task management, maintenance, and secure messaging applications, Versity 92 Series replaces the toolbelt of mobile devices often carried by staff such as pagers, barcode scanners, two-way radios, and wireless phones. Versity 92 Series is a lightweight device that's durable out of the box without needing a bulky protective

With Spectralink you get:

- Our proprietary Voice Quality Optimization™ (VQO™) technology delivers crystal clear voice quality you can count on, plus noise suppression and echo cancellation capabilities
- Access to our world-class ecosystem of application partners to ensure your workers have the tools they need to get the job done
- The best call control UC interoperability in the industry - we integrate with all leading UC platforms
- Supported by AMIE, our mobile intelligence platform, for easy deployment, call quality monitoring and battery health to ensure you get the most out of your mobility investment.

case and is easy to use with one hand, plus it won't weigh down a pocket. And, with Spectralink SAFE technology, Versity 92 can call for help at the touch of a button.

Versity 92 also features a mid-sized display and touchscreen to securely view the most critical patient information without having to access a computer station and is certified with many leading Healthcare application platforms, such as Cerner CareAware Connect, Connexall MobileConnex, Halo Clinical Communication Platform, Vocera Vina, and many more. And, with its optional built-in scanner, a patient's wristband can always be scanned for identification and protocol purposes, whether checking a patient in to the facility, patient transport, ensuring the right meal is being delivered to the right room, and any other instance in which a wristband would need to be scanned.

Benefits of the Spectralink Versity 92 Series for non-clinical workers:

- Better communication and collaboration among care team members
- Decreased patient wait times and improved patient satisfaction
- Greater team collaboration via secure messaging, push-to-talk, and voice calls
- Improved efficiency managing tasks and workflows
- Built for healthcare - whether they're dropped on hard surfaces or sterilized with harsh cleaning agents, our purpose-built wireless devices stay intact and functional

Device Management and Insights

Healthcare more than any other industry needs to provide a continuum of care: devices need to always be up and working properly for staff to take care of patients. AMIE™, our cloud-based mobile analytics dashboard for IT and telecommunications administrators, provides valuable insight into device and network health, supporting mission-critical mobility so that your clinical support staff has the peace of mind to know that their Versity 92 device is going to work and do what it is supposed to do: enable information and communication at their fingertips anywhere on the job for optimal patient care.

Versity 92 Series is ideal for:

- Food delivery services
- Patient transfer management
- Room/bed cleaning tasks
- Hospital facilities maintenance
- Task allocation
- Asset management, location, and delivery to required destinations
- Site incident response (e.g. fire alarms)

Versity 92 Series highlights:

- An award-winning, lightweight, and sleek design that's as intuitive, versatile, and as portable as a personal smartphone but with the power and durability of an enterprise device.
- Crystal clear voice quality through engineering focus on QoS (Quality of Service). Optimized roaming between Access Points (APs) with a prioritization of voice over data for no interruption to the user and no delayed or missed calls for more effective communication and collaboration and reliable connection in critical healthcare settings.
- IP65 rated, durable right out of the box without the need for a protective case. Built with quality Dragontrail™ glass, a recessed screen, and reinforced design, Versity 92 will perform even if dropped, exposed to water, or faced with other harsh environments, and it can be used while wearing latex gloves.

About Spectralink

As an award winner in mobile technology, Spectralink has been transforming the way our customers work and communicate for 30+ years. Through our determination to do extraordinary things, we enable mobile workforces and empower our customers and partners to explore what's next, what's possible. With our enterprise grade, best-in-class mobile solutions, we are with our customers wherever they work, however they need us. Our people, commitment to innovation and our passion are our foundation for success.
