Versity 97 Desktop Mode

Unlock a Higher Level of Proficiency

Spectralink Versity 97 Desktop Mode

With a PC-like desktop experience, you and your fellow clinicians can access and navigate multiple applications simultaneously, making it faster to document care, view results, and act in the moment. Less time logging in and out means more time at the bedside.

Launching desktop mode with the Versity 97 HDMI Docking Station transforms your mobile device into a complete workstation, eliminating workflow interruptions and bottlenecks that quickly become distractions.

Your workflows are complex. Simplify them.

Seamless EHR/Application Access

Eliminate multiple logins/logouts and device switching with a single mobile-powered desktop experience that provides an uninterrupted and richer application session.

Enhanced Productivity

Streamline your administrative tasks by dropping your Versity 97 into an HDMI Docking Station and instantly start accessing and working in your EHR and apps on a larger screen.

Secure, Compliant, and Convenient

Achieve HIPAA compliance by accessing your key critical systems via one device, while reducing the reliance on laptops, desktop computers, and workstations on wheels.

Let's talk about simplifying your workflows with Spectralink Versity 97 Desktop Mode.
