

# Spectralink Versity Smartphone Applications

Included with all Versity smartphones, Spectralink applications enhance the device user's experience and offer device optimization features for administrators. Spectralink applications can be easily managed and configured for your entire fleet with AMIE Essentials.

## TELEPHONY, CUSTOMIZATION, AND SAFETY APPS FOR DEVICE USERS

### BIZ PHONE

**Spectralink's SIP telephony dialer for Versity smartphones**

- Uses Wi-Fi telephony through wireless LAN
- Integrates with **leading call servers**
- Multiple active calls, transfer, forward, conference calls, do not disturb, voicemail and more
- Displays call history and contacts (local and LDAP integration)
- Offers emergency call management

### PTT

**Spectralink's radio multicast for Push-to-Talk / Walkie talkie**

- Enables Push-to-Talk without a centralized sever
- Interfaces with BizPhone calling activity
- Subscribe to up to 25 channels and select default
- Transmit or listen only options for each channel
- Soft and hard transmit keys

### SAFE

**For employee protection in emergency situations and lone-worker environments**

- Provides personal monitoring for man-down functionality
- Alarms and motion sensors for no-movement, tilt and running
- Dedicated alarm/panic button on the device that calls an emergency number
- Interfaces with 3rd party security services

### SOUNDSTAGE+

**Enables admins or device users to control various system and application volume levels with sound profiles**

- Choose from five sound profiles including Normal, Loud, Soft, Silent, and Personal
- Control minimum/maximum and default volume levels of system and application sounds
- Configure app rules to apply different sound profiles at a specified time
- Easily change profiles from the navigation bar
- Admins can enable or disable end user access to change sound profiles

## TELEPHONY, CUSTOMIZATION, AND SAFETY APPS FOR DEVICE USERS

**BATT LIFE**

**Displays the current condition of the battery and allows the user to adjust battery settings**

- Set custom alerts, ringtones and vibrate options by battery usage percentages
- Indicates charge percentage for primary and secondary batteries
- Shows primary and secondary battery charges
- More user-friendly than the default Android battery app

**BUTTONS**

**Allows Versity smartphone buttons to be programmed to perform an assignable action**

- Six programmable buttons include: Left side, Right side, Top (red), Fingerprint (back), Volume up, Volume down
- Program buttons to open applications, URLs, activate PTT, scanner, or SAFE alarm, or configure custom parameters such as Teams Walkie-Talkie

**SINGLE SIGN ON (SSO)**

**Authentication system that allows one Versity smartphone to be shared by multiple users with separate logins**

- Allows sharing one Versity smartphone among multiple users
- Each user has a unique extension and credentials on the PBX which are also configured in the identity management solution

## CONFIGURATION AND DEVICE MANAGEMENT APPS FOR SYSTEM ADMINISTRATORS

**SAM CLIENT**

**SAM Client connects Versity devices with Spectralink Application Management (SAM) in AMIE Essentials to configure Versity applications and other phone management services not available through an EMM**

- Set SAM server location & install SAM server certificate
- Enter SAM Account Key for user verification
- Establish heartbeat interval and trigger heartbeat on demand to SAM server

**AMIE AGENT**

**Forwards device metrics to AMIE enabling administrators to keep track of real time performance in the management console.**

- Forwards metrics such as battery status and device status, performance, and utilization to the AMIE Analytics system
- Parses the information and presents it in a GUI interface for real-time system monitoring and management

**DEVICE SETTINGS**

**Provides system admin with additional controls for configuring devices**

- Allows the administrator to grant or restrict users' permissions
- Control settings including Wi-Fi and airplane mode, time zone, time format, keyboard, touch settings, camera, wallpaper

### VQO (VOICE QUALITY OPTIMIZATION)

**Optimized audio and video calls from Spectralink dialers or other third-party dialers**

- Prioritizes packets for optimum voice quality
- Allows RSSI threshold adjustments as needed
- Provides channel configuration options

### BARCODE

**Enables the configuration of the built-in scanner on Versity smartphones**

- Configure symbology details
- Settings for scan light intensity, flash, and audible acknowledgment
- Scan range variability for focus adjustment

### WEB API

**Allows admins to interface with external services and provide links to frequently used websites**

- Enable/disable API function by individual device, group, or enterprise
- Supports JSON and XML
- Prioritize messages and push ringtones
- Customize attributes and event settings for incoming call, registration, etc.
- Provide links to frequently used websites

### SYS UPDATER

**Checks the software update server for new software and downloads updates**

- Informs the user if a new version of software is available
- Allows the user to download the new software version
- Can be configured by administrators for software download timing and approval

### LOGGING

**For the management of syslog information by the system administrator**

- Enable/disable logging service
- Configure syslog server address
- Specify exact logging filters through Android commands
- Offers password-protected advanced debugging access

### DIAGNOSTICS

**Perform diagnostic tests quickly and efficiently prior to considering RMA**

- Info tab: Provides basic software and hardware information
- Tests tab: Allows admins to run various hardware tests and record pass or fail results for each test
- Results tab: Displays test results and generates a QR code to record results or reset the tests

## About Spectralink

As an award winner in mobile technology, Spectralink has been transforming the way our customers work and communicate for 30+ years. Through our determination to do extraordinary things, we enable mobile workforces and empower our customers and partners to explore what's next, what's possible. With our enterprise grade, best-in-class mobile solutions, we are with our customers wherever they work, however they need us. Our people, commitment to innovation and our passion are our foundation for success.
