

“Enterprise Grade” doesn’t have to mean bulky and unwieldy with Spectralink Versity Family devices!

Spectralink’s Versity Family of Wi-Fi enterprise-grade smartphones puts best-in-class voice and industry-leading applications into a light, durable, all-in-one mobility solution. Versity devices feature a sleek, familiar smartphone design in a high-powered, durable, enterprise grade package small enough to fit in your pocket. Available in two models, Versity 95/96 and Versity 92, both with scanner and non-scanner options.

Clinicians, retail store clerks, hospitality workers and equipment operators need to move about their workplace to do their jobs effectively, but still need to be connected to their teammates while caring for patients or customers. Versity devices solve this problem by putting knowledge and information into users’ hands to increase efficiency, improve communications, and foster a better work environment with reliable, durable, uninterrupted communication around the clock.

## Mobility is not just a one-size-fits-all solution.

With Spectralink, you can implement a mixed portfolio of Versity 92 & 95/96 devices to equip each user with the appropriate device for the job. Versity 95/96 Series is our premium smartphone option for frontline workers like nurses and store or hospitality managers or those working in the harshest of environments who need 24x7 communications access. The Versity 92 Series is the more compact and cost-effective option and is ideal for retail associates who need to stay connected while on the floor, stocking shelves, or assisting customers, or for long-term care facilities and patient care providers with less data-intensive workflows who still need alert notifications and scanning.

### VERSITY 92 SERIES

- Ideal for task management workflows (checklists and checkbox flows)
- A mid-tier, affordable, compact enterprise-grade solution
- Durable design for demanding environments with IP65 for water and dust resistance and 1X military drop standard at 1.5 meters
- 4" display with narrow form factor for easy grip and one hand use
- Swappable battery that can be separately charged

### VERSITY FAMILY

- Devices that are as intuitive, versatile and portable as a personal smartphone, but with the power and durability of an enterprise device
- Lighter than competitive devices and can fit easily into a pocket
- Enable more effective communication and collaboration with best-in-class crystal clear voice quality
- Empower your teams to deliver superior customer experiences by giving them the information and tools they need at their fingertips
- Deploy, manage and troubleshoot your Versity devices with AMIE, our mobile intelligence dashboard for insights into your fleet to avoid downtime and optimize operations

### VERSITY 95/96 SERIES

- Ideal for data driven workflows (lengthier communications, patient records) and more complex applications
- Our premium, all-in-one VoWi-Fi solution
- Rugged; toughest device in the market with IP68 for water and dust resistance and 3X military drop standard at 1.5 meters
- Large 5.2" display for better worker experience for users of heavy data application
- True hot swappable batteries for zero downtime

## Superior Voice Quality

- **Engineering-optimized chipsets** that decrease the chances of lost audio, a delayed ring, or a missed ring all together.
- **Focus on QoS (Quality of Service)** ensures voice is always prioritized over data. Our industry-leading, proprietary Voice Quality Optimization™ (VQO) technology that enhances scanning and roaming optimization between Access Points on our Versity devices leads to robust and reliable calls with less latency as users move throughout large campuses, plants, or stores.
- **Optimized microphone design and placement** for noise suppression and echo cancellation. Mobile workers in fast paced environments do not need to worry about sweat or makeup clogging a microphone and can ensure clear communication on every call, even in noisy environments.

## Durability

Our Versity devices exceed both industry standards and the competition's both in their ability to withstand drops and their resistance to liquids and chemicals and through the way you can clean your device to help stop germ spread.

We stress our phones out so users don't have to worry about going beyond their durability capabilities and can instead focus on the job at hand.

From touchscreens that can be used while wet or with gloves on to devices you can answer even when submerged in water, our enterprise-grade phones have been thoughtfully and purpose-built to stand up to the harshest environments.

## Managed by AMIE

Complete your Versity Family solution with AMIE (Advanced Mobile Intelligence for Enterprises). AMIE is a dashboard that provides answers and solutions to the biggest questions post-deployment on your Spectralink devices. Through AMIE, IT and Telecommunications administrators can easily manage and deploy their fleet of smartphones, diagnose issues, assess call performance, check battery status, locate their devices and much more to keep their mobile workflows operating smoothly, increasing efficiency and getting the most out of their investment.

## Comprehensive Services and Support

From Design and Deployment to Optimization and Maintenance, Spectralink Services augment enterprise mobility success and business results, leading to better ROI. Our comprehensive Services maximize the power of mobility and are tailored to organizational needs and workflows. At Spectralink, the experience and expertise of our Professional Services Team is the difference between us and the competition.

## Benefits of Versity:

- Eliminate the toolbelt with an all-in-one solution
- Quieter workplace through reduced overhead paging noise
- Constant access to communication
- More secure, durable and adaptable than a consumer grade device

## With Spectralink you get:

- Our proprietary Voice Quality Optimization™ (VQO™) technology delivers crystal clear voice quality you can count on, plus noise suppression and echo cancellation capabilities
- Access to our world-class ecosystem of application partners to ensure your workers have the tools they need to get the job done
- The best call control UC interoperability in the industry – we integrate with all leading UC platforms
- Supported by AMIE, our mobile intelligence platform, for easy deployment, call quality monitoring and battery health to ensure you get the most out of your mobility investment

## About Spectralink

As an award winner in mobile technology, Spectralink has been transforming the way our customers work and communicate for 30+ years. Through our determination to do extraordinary things, we enable mobile workforces and empower our customers and partners to explore what's next, what's possible. With our enterprise grade, best-in-class mobile solutions, we are with our customers wherever they work, however they need us. Our people, commitment to innovation and our passion are our foundation for success.
