

# Spectralink Versity Smartphones for Healthcare

## Modern Healthcare in Motion

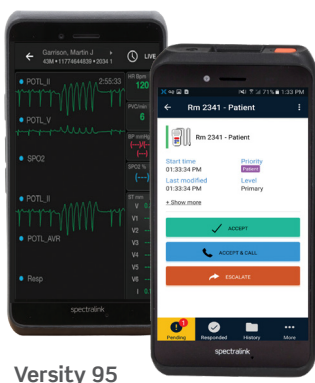

Versity Smartphones support the critical communication, care coordination, and documentation requirements of patient care teams and medical support staff.

### Versity smartphones empower healthcare staff to deliver advanced patient care on the move.

Spectralink Versity enterprise-grade smartphones are the premium mobile communication solution designed specifically for the rigors of demanding healthcare environments. Featuring unmatched voice quality, secure data access, and scanner, the rugged and lightweight devices streamline many tools into a single device that won't weigh down scrub pockets. Versity smartphones integrate seamlessly with leading healthcare applications helping to improve patient outcomes, optimize workflows, and put caregivers back at the patient bedside – where they matter most.

### Providing Essential Mobility Tools to Healthcare Workers

- Crystal clear voice quality to hear every word the first time
- Lightweight device that won't weigh down scrubs pocket
- Built-in scanner to scan medications and patient bracelets
- Update patient info at the point of care
- Receive patient alarms and alerts and respond immediately
- Touch screen useable with latex gloves
- Durable design built for healthcare

Versity 95

Versity 97

## Seamless integration

**Versity smartphones integrate seamlessly and securely with leading healthcare applications** and innovation partners, including paging, EHRs, nurse call, alarms, secure texting, single sign-on, and location services for uninterrupted mobile communication and streamlined operations.

## Make the conversation clear, lives depend on it

**Versity smartphones provide crystal-clear voice quality** with echo cancellation and AI-enhanced noise suppression\* so clinicians can distinctly hear orders, request assistance, and communicate in loud and chaotic environments. Two Wi-Fi antennas provide enhanced roaming for effective communication on the move.

## Enable patient care collaboration

Through application partners, **Versity smartphones empower nurses, doctors, and other care team members to collaborate faster** and more effectively with immediate access to calling, messaging, and critical alarms and alerts anywhere on the job. Patient records and current information is at their fingertips to improve care coordination, reduce error potential, and enable more time to focus on patients.

## Monitor patients on the move

**Clinicians have insight into patient status from anywhere in the hospital.** Alarms and alerts are sent directly to Versity smartphones so clinicians can respond to a patient needs and triage. From the large touch screen display, view real-time patient vital signs, and waveforms are easily readable, so clinicians aren't tied down to a computer station. The built-in scanner makes scanning patient wristbands and medication at the bedside quick and efficient.

## Rugged design for healthcare

**Versity smartphones are the most rugged smartphones on the market to ensure durability in demanding healthcare environments**, no protective case needed. The rugged design features a shatter-proof display to survive drops to concrete floors and is waterproof. The casing is made from medical-grade resin and will hold up to frequent cleanings with hospital cleaners. Versity 97 smartphones even have an antimicrobial display coating for a hygienic shared solution.

## Facilitate clinical safety

**Built-in emergency functionality enables caregivers to request resources and assistance quickly in an emergency.** Automated alerting, including details of the patient situation, facilitates timely and informed responses. For staff safety, Spectralink SAFE features include a dedicated alarm button and motion detection alarms that alert security when assistance is needed.

## Secure data exchange

**Versity smartphones allow clinicians to securely exchange critical information via real-time secure text messaging** from partners like Oracle, Spok, TigerConnect, Epic, Connexall, Philips Healthcare, Imatis, and Best. Through these applications, caregivers can share the latest updates on their patients, knowing this information will always be safe, secure, and HIPAA compliant.

\*Available on Versity 97 Models

## Comparing Versity Smartphones

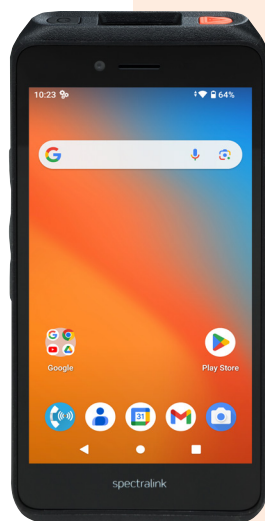

### Versity 95/96 Series

**Puts documentation, notification, communication, and information into the hands of caregivers.**

**Versity 95/96 delivers voice-critical communications and leading workflow applications in a sleek, lightweight, and durable enterprise-grade smartphone. It's the premium smartphone option for reliable information and communication access.**

#### Features

- 5.2-inch touchscreen display
- Slim design, made from medical-grade resin
- IP68 rated; drop and waterproof
- Noise and echo cancellation for crystal-clear calls
- Hot-swappable battery eliminates down time
- Integrated scanner with red aiming beam
- 13MP camera for easy documentation
- Red alarm button and man down features
- LTE for anywhere communication. (Versity 96 only, not available in the US)

### Versity 97 Series

**Setting a new standard for productivity, communication, and performance in healthcare.**

**Versity 97 revolutionizes the way clinicians communicate and collaborate by providing the next generation of smartphone technology, instant access to information, and unmatched call quality. It's the ultimate solution for demanding 24x7 environments where every second counts.**

#### Features

- 2.8x faster and more powerful processor
- 5.2-inch display with FDA approved antimicrobial coating
- Slim design, made from medical-grade resin
- IP68 rated; drop and waterproof
- AI noise suppression and echo cancellation for best-in-class call quality
- Hot-swappable battery eliminates downtime
- Integrated scanner with green aiming beam
- 16MP camera for detailed documentation
- Red alarm button and man down features
- Optimized button placement with embossed button identifiers
- Supports workstation docking for more intense charting use cases
- Wi-Fi 6/6E supports quicker download speeds and more devices on the network
- RTLS ready for location and device tracking

## About Spectralink

As an award winner in mobile technology, Spectralink has been transforming the way our customers work and communicate for 30+ years. Through our determination to do extraordinary things, we enable mobile workforces and empower our customers and partners to explore what's next, what's possible. With our enterprise grade, best-in-class mobile solutions, we are with our customers wherever they work, however they need us. Our people, commitment to innovation and our passion are our foundation for success.
